SUMMARY

Full Stack Software Engineer with experience taking applications from zero to production. At Nexus Labz, I architected and shipped a React Native (Expo) mobile app with its backend, JWT and Google OAuth authentication, payments, VPS infrastructure with Nginx and CI/CD on GitHub Actions. I work with TypeScript, JavaScript, Node.js, PHP/Laravel, Python and C#/.NET, and databases such as PostgreSQL, MySQL and SQL Server. Computer Science student at Unoesc, expected to graduate in December 2027.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, PHP, Python, C#, SQL

Backend: Node.js, Laravel, .NET, REST APIs, JWT and OAuth authentication, payment integration

Frontend & Mobile: React, React Native, Expo, HTML, CSS

Databases: PostgreSQL, MySQL, SQL Server, Supabase, MongoDB

DevOps & Infrastructure: Git/GitHub, GitHub Actions (CI/CD), Linux, VPS, Nginx, SSL/TLS (Let's Encrypt), AWS (basic)

Quality: E2E testing with Playwright and Appium, ESLint, code review

Concepts: layered architecture, MVC, OOP, data modeling, access control (RBAC and Row Level Security)

PROFESSIONAL EXPERIENCE

Full Stack Developer (Freelance) — Nathiara Borges, Law Office

Aug 2026 – Sep 2026

nathiaraborgesadv.vercel.app

- Built a legal platform about the rights of people with disabilities, focused on autism (ASD): landing page, law office website, portfolio, mentoring page and link hub.
- Focused on accessibility, semantic HTML and clear navigation for its audience.

Stack: JavaScript, Node.js, HTML, CSS

Mid-level Software Engineer — Nexus Labz Ltda.

Jan 2026 – Jun 2026 · Hybrid

- Configured Nginx as a reverse proxy, SSL/TLS with Let's Encrypt and server-level security hardening.
- Implemented CI/CD pipelines with GitHub Actions for automated backend deployments.
- Mentored a junior developer and led technical reviews.

Stack: Nginx, Let's Encrypt, Linux, GitHub Actions

Junior Software Engineer — Nexus Labz Ltda.

Jan 2025 – Jan 2026 · Remote

- Architected and shipped a production-grade React Native (Expo) mobile app.
- Defined a layered system architecture across the mobile and backend layers.
- Integrated payment processing, offline caching and Google sign-in (OAuth).
- Designed a JWT-based authentication flow with secure API communication.
- Led infrastructure decisions and set up a VPS-based production environment.

Stack: TypeScript, JavaScript, React Native, Expo, JWT, Google OAuth, PostgreSQL, MySQL, SQL Server

Mid-level Full Stack Developer (Freelance) — Vitale App, Pilates Studio

Nov 2025 – Dec 2025

- Owned the project end to end: a studio management app for Android and iOS.
- Monorepo with Yarn Workspaces and reusable layers (core, UI and API).
- Authentication, role-based access control and Row Level Security on PostgreSQL (Supabase).
- E2E tests for web, API and mobile with Playwright and Appium, plus a quality pipeline (lint, format and CI).

Stack: React Native, Expo, TypeScript, Supabase, PostgreSQL, Playwright, Appium, GitHub Actions

PROJECTS

RCP — Exam Prep Platform

github.com/DEVBORGES1/RCP-Sistema-De-Concursos

SaaS platform for candidates preparing for Brazilian public service exams, with personalized study routines, interactive mock exams and a gamified performance dashboard. Implemented authentication, mock exam management, progress tracking and statistics charts.

Stack: PHP, Laravel, MySQL, JavaScript

Cinema Management System (Backend)

Academic project · Unoesc

Backend and database modeling for a cinema management application: APIs and business rules in C# with .NET, with tables, relationships and SQL queries on MySQL.

Stack: C#, .NET, MySQL

Expense Control

github.com/DEVBORGES1/Expense-Control

Desktop personal finance app in Python for compulsive shoppers: charts dashboard, category budgets, wishlist, goals and gamification.

Stack: Python

Personal Portfolio

devborges.vercel.app

React and Vite website with pre-rendered HTML, Portuguese and English versions and a technical case study. It has 39 E2E tests with Playwright and accessibility checks with axe-core, running in CI on GitHub Actions.

Stack: React, Vite, Playwright, GitHub Actions

EDUCATION

B.Sc. in Computer Science — Unoesc (Universidade do Oeste de Santa Catarina)

Expected Dec 2027

Videira, SC, Brazil

LANGUAGES

Portuguese: native · English: intermediate (B1) · Spanish: intermediate
